Summary

M.S. Computer Science student at Louisiana Tech University focusing on Data Science and AI, with 3+ years of professional experience as a software engineer, data engineer, and team lead at PwC (on assignment at Meta), DXC Technology, and SaiQuest. Built real-time data pipelines, AWS-native CI/CD, Django APIs, and React dashboards; led intern teams through sprints and client delivery. 4x AWS Certified and 1x Azure Certified.

Education

Louisiana Tech University Sep. 2026 – May 2028 (Expected)
Master of Science in Computer Science *Ruston, LA*
- Relevant Coursework: Advanced Topics in Software Engineering; Statistical Analysis of Six Sigma

University of Louisiana at Monroe Aug. 2019 – May 2023
Bachelor of Science in Computer Science *Monroe, LA*
- GPA: 3.62/4.00, Cum Laude; Dean's List

Experience

SaiQuest LLC Sep. 2024 – May 2026
Data Engineer *West Monroe, LA*
- Analyzed operational data and performance metrics to identify trends, recommending process improvements that increased front-desk efficiency and guest satisfaction.
- Designed and maintained dashboards tracking occupancy, revenue, and service KPIs, improving decision-making visibility.
- Automated manual reporting workflows with Python, saving staff 10+ hours weekly and reducing errors.

PricewaterhouseCoopers (PwC) Oct. 2023 – Mar. 2024
Software Engineering Consultant (Contract), on Assignment at Meta *United States*
- Built data pipelines for real-time streaming analytics on Meta's proprietary internal tooling.
- Optimized processing time with intermediate message queues and cache lookups, resolving missed events, backfill, and timing issues.
- Engineered an internal operational intelligence dashboard in React for real-time monitoring and optimization.

DXC Technology Jun. 2023 – Sep. 2024
Sr. Analyst III, Software Engineering *New Orleans, LA*
- Led a team of 5 interns through daily sprints, client interactions, and training while contributing to an Angular application, helping secure their rehire.
- Streamlined AWS-native CI/CD as an individual contributor, saving 50 developer hours and improving observability.
- Restructured Django APIs for 3x faster response times and better scalability.
- Initiated the company's first AI capability using Azure OpenAI, Azure Cognitive Search, React, and a Flask API.

Undergraduate Solution Architect Intern *Jun. 2022 – May 2023*
- Designed an ELK stack for centralized logging and log visualization in AWS.
- Built serverless logging with AWS SDKs (Lambda, OpenSearch, S3, EC2, RDS, WAF, Amplify, SNS, SQS, CloudWatch).
- Worked in an Agile team of 52 interns and integrated centralized logging into 4 other applications.

University of Louisiana at Monroe Jul. 2020 – Aug. 2022
IT Support Technician, Computing Center *Monroe, LA*
- Led a team of six help desk technicians handling 800 tickets/month across the main campus and three satellite sites (1800+ support hours).
- Rewrote procedural documentation, cutting average ticket resolution time from hours to 30 minutes; recognized as Excellent Employee with the highest daily and all-time ticket resolution records.

Technical Skills

Languages & Frameworks: Python, Java, JavaScript, SQL, ReactJS, Angular, Django, Flask

Databases: PostgreSQL, MySQL, MongoDB, DynamoDB, Redis

Cloud & DevOps: AWS (Lambda, S3, EC2, RDS, OpenSearch, CloudFormation), Azure, Docker, Kubernetes, GitHub Actions CI/CD

Data & AI: Data Pipelines, ETL, Machine Learning, Data Science, Dashboards and KPI Reporting, AI/LLM Integration

Tools: Git, Linux, Postman, Jupyter, Heroku, VirtualBox

Certifications

- AWS Certified Solutions Architect – Associate; AWS Certified Developer – Associate; AWS Certified SysOps Administrator – Associate; AWS Certified Cloud Practitioner; Microsoft Certified: Azure Fundamentals (credly.com/users/sijan-malla)
